** DID YOU EVER STOP TO THINK

By Edson R. Waite, Shawnee, Oklahoma

R. H. BALLARD, PRESIDENT OF THE SOUTHERN CALI-FORNIA EDISON COMPANY, SAYS:

"What a wonderful thing it would be if all fault-finding could be transmuted into co-operation!

"What a waste of energy is involved in mere scolding, and how much of this scolding there is! Take-if you can pick it out-the industry that during the lest ten years has given most to the world. Take the industry whose progress has meant the greatest increase in comfort and the joy of living. I have my own notion of what that industry is, but I won't tell. Each one can choose his own pet industry without any contradiction from

'Now having chosen this prize industry, look through the recent newspapers and see how many inches of space have been givin in praise-and how many in condemnation of some merely trivial fault, or supposed fault. Read the congressional record and see how many speeches have held this industry up for the emulation of others and how many speeches have denounced this or that minor feature.

"Look over the comment of our public officials. How much space is given to that great majority of men whose sincere, earnest and honest hard work ought to be blazoned from the house tops-how much to that very small minority who are incompetent, or who may be carless?

"Let's get together and try to co-operate and for constructive policies. If criticism is needed here and there, let the criticism be constructive. If you first tell a fellow that he is doing a wonderful job, he will listen closely when you suggest some possible further improvement. Suppose you approach a man who knows that he has been doing a lot for the common good; if you start in by telling him that his industry ought to be destroyed, you can't expect to get very far.

"CO-OPERATION MEANS PROGRESS-SCOLDING ONLY DESTROYS."

GLYCER : MIXTURE STOPS CONSTIPATION.

The simple mixture of glycerin, buckthorn bark, saline, etc. (Adlerika) acts on BOTH upper and lower bowel and relieves constipation in TWO hours! Brings out old waste matter you never thought was in your system. Don't waste time with pills or remedies which clean only PART of the bowels, but let Adlerika give stomach and bowels a REAL cleansing and see how good you feel. W. H. WINDROW, DRUGGIST.

Its relief may always be relied on, whether used for the occasional headache, to head-off a cold, or for the more serious aches and pains from neuralgia, neuritis, rheumatism or other ailments. It's easy to identify Bayer Aspirin by the Bayer Cross on every tablet, by the name Bayer on the box and the

Hondo Baptist Badgers Meet First Baptist Pals In Initial Game of Year

Local Team Looks Fast in Workouts With Town Team Early In Week

JONES CAPTAINS BADGERS

San Antonio Squad, Runner-Up in Intermediate League Last Year

The lid of the local basketball

season is blown off tonight at 8 p. m. when the Hondo Baptist Badgers meet First Baptist Pals of San Antonio at the Fair Ground's in the Hondo Gymnasium.

The local team will be playing its first game and will be lead by Glenn Jones, of Knippa High School fame. The Badgers have spent the last week in practice and Monday night scrimmaged with the Town Team. The Baptist looked fast and seemed to be a good shooting form for o early in the season.

The First Baptist team won its first game last week and is known to lave a fast offense. The Pals, as

the San Antonio team is called, were runner-ups in the Intermediate Sur day School league last year, bein beaten out by one game by the SI John's Lutheran team. The San Amtonio squad lost only three regulars and two subs from their last year's squad. They have been joined by Oswald Thrailkill, a center of three year's experience to nulliy the last of their center in '28.

A concident of the game is that Jones captains both teams. Jack Jones, reliable guard of the Pals, will lead the vistors in tonight's game. Another feature of the match is that Badgers, was captain of the First arter Snooks, now playing with the Baptist team in '28.

TEXAS AND TEXANS.

By Will H. Mayes

Hunting Fatalities The announcement that Govenor Moody and other notables would open the deer slaying season in Texas brings to mind that fact that, although the hunted animals are not even on the defensive, every hunting season a large number of Texas hunters are killed and maimed. Last month twelve hunting accidents were reported, eigth of which were fatal. During the last hunting season 82 accidents were reported, 42 of them fatal. By no means all the accidents and fatalities are reported. Many Texas lives are sacrificed every year something.

Headlight Law Enforcement

We are promised a rigid enforcement of the headlight law in Texas when the new highway patrol gets at its work. Most drivers of cars are not aware of the fact that their lights do not conform to the law. view for something said about its The trouble seems to be with the stations that made the examinations, or else the lights do not stay in an item he had seen in the Tyler adjustment as long as they should. However, there are many users of the highways who seemingly make days later from a West Texas boostno effort to observe the law as to

Predict Much Politics

Observers of political affairs say that the January called session of the legislature is likely to be devoted more to politics than to legislation. Political skyrocketing will start beneath the dome of the the State capitol and the smaller fireworks will radiate from every courthouse in the State. There is every indicain Texas will be the most heated the tion now that the campaign of 1930 State has had in years, and Texans have seen some hot campaigns.

Prison Location

Two, maybe three, reports will be made to the governor and through him submitted to the legis ature by the prison locating committee. The main prison issue will be over location, whether it will be placed near Austin, as recommended by the majority of the committee, or on some of the farms now owned by the prison system. There is a danger that in the fight over the location, sight will be lost of the humanitarian side of the prison question and we will not build a new prison of a kind best adapted to the reform of prisoners, but will continue to place all the emphasis on punishment. All prisoners are not felons, and even many felons would be glad to reform their lives if only given the oppor-

Turkey Prices Slump

Just about the time that the farmers begin to think they have found some money, market manipulators get together and fix prices so low that profits vanish into the air. Turkeys brought a rair price last year, around 32 and 35 cents a pound, but have dropped to 18 and 20 cents on cess of that of last year. "Supply and buyers hold responsible for the lowering of the price. However, it is safe to say that the produce dealers are not likely to lose, whatever prices ways catches the load of the price slumps where "the turkey gets the

Granite Bus ness Grows

Reports from the Llano granite quarries are that shipments of the amous Liano stone have been un usually good this year and that the business will exce d that of last year. The increased pusmes has necces situted the emargement of several or the plants and the ehlployment of additional men to keep pace with the growing demand. There is no reason why the Liano-Burnet granite secions should not become as famous as those of the East and North, except enat they have not had organized publicity.

Wool and Mohair Advertising

Many growers of wool and mohair are attributing the present low price of these products partly to a lack of publicity. Rayon has come into common use everywhere in the past few years, and its popularity is said to be licity conducted on a nation-wide the year , records 200 eggs and over, scale. Much of the popularity of largely the result of persistent pubrayon has been at the expense of wool and mohair, for as rayon sales under Supervision Sanitary Live- have increased they have decreased. A movement is under way to conduct a national advertising campaign to increase the demand for woolen goods. A similar campaign for the cotton interests would prove equally advantageous.

Coleman Retains Waterworks

The city commission of Coleman has decided not to call an election to ascertain whether the voters wish to sell the municipally-owned waterworks unless more than 100 qualified voters petition for such an election. The city has been offered \$450, 000 for its plant.

At the same meeting at which this offer was refused the commission was informed that at its next meeting a majority of the voters would

petition to be allowed to vote on bonds for a muncipal ice plant. Evidently the Coleman people believe that the city should secure all the advantages to come from the ownership of public utilities.

BUICK SELLING 42 PERCENT OF CARS IN CLASS

C. W. Churchill Issues Statement following study of Reports

That the Buick Motor Company is now selling 42 percent of all the cars in Buick's price class is the statement made by C. W. Churchill, general sales manager, following a study of reports for the three months ending October 31st.

The price class in which Buick cars are listed embraces 14 other makes of automobiles, any one of which the Buick Motor Company is now out-

C. W. CHURCHILL, General Sales Manager BUICK MOTOR CO.

celling by a margin of at least two to

"It is extremely gratifying to learn from the most recent reports that public acceptance of the 1930 Buick line of automobiles has not only maintained Buick's position of leadership in the fine car field, but has increased its sales percentage to 42 percent of the entire price class", says Mr. Churchill.

Mr. Churchill attributes the increase in Buizk's sales percentage to the unusual popularity of the 1930 models, which has brought into the Buick column many purchasers who have heretofore owned and driven other makes, and to the loyalty of those who have been Buick owners. In this connection another start-

ling statement of fact was included in Mr. Churchill's public announcement-the fact that Buick sells, each year, more than half of its output to old Buick owners, which constitutes a record of owner loyalty unparalleled In the entire automobile industry.

Reader of Cotulla is without doubt the outstanding defensive end in the district. Bader is the outstanding tackle, and Watkins is the best guard. Alexander rates center over Cope maily because he directs the offence and defence of the Sabinal team, and is the headiest signal barker in the district. B. Adams of Del Rio is moved to half instead of full because of his weight. Wynn is the best full in the district, but good fullbacks are scarce this year. None approach Mrs. Earl Starnes, one suit silk Taylor of Hondo, last year's all-district full. The second string above listed is far below the first string except at center and tackles.

Mr. O. H. Miller, Hondo, Texas.
